

Antioxidant Arsenal

Product Code: 4033 (28 packets)

Antioxidant Arsenal combines nutrients that are scientifically documented as powerful antioxidants. These help the body to fight what are known as 'free radicals'. Free radicals are charged particles produced by chemical pollution and normal body processes. Being unstable, they can set off a chain reaction leading to tissue damage if not quickly subdued by free-radical scavengers known as antioxidants. Compromised cellular integrity is typically linked to free-radical damage.

Every moment of every day, your body is fighting a battle against an army of cell-damaging free radicals. Pollution, chemical additives, stress, sunlight and other factors produce or trigger these destabilising molecules.

It is known that the body needs antioxidants in food to maintain good health. The most well-known antioxidants are included in these packets, substances that are believed to keep body cells intact and thus safeguard their DNA, the cell's 'master plan' for proper cellular function and reproduction. Also included is proanthocyanidin which, unlike other antioxidants, crosses the blood brain barrier.

Each individual packet of Antioxidant Arsenal contains 4 tablets and 2 capsules supplies typically:

Vitamin A - 2400 mcg

From Beta-carotene – 15mg

Vitamin E – 268 mg

Vitamin C – 500 mg

Zinc – 15 mg

Selenium – 25 mg

Proanthocyanidin complex – 30 mg

Bioflavonoids – 18.75 mg

Herbal base – 400 mg

Each Packet Contains:

NSP Beta-Carotene – 1 capsule supplies 2400 mcg of Vitamin A equivalent (beta-carotene). Ingredients: hibiscus flowers, Caromix (carotenoid blend), maltodextrin, gelatin, water (Herbs dried and powdered).

NSP Zinc – 1 round, grey tablet supplied 15 mg of zinc. Ingredients: di-calcium phosphate, zinc gluconate, microcrystalline cellulose, kelp plant, alfalfa herb, thyme herb, magnesium stearate.

SynerPro Grapine with Protectors – 2 round, tan tablets supply 30 mg of proanthocyanidin complex and 30 mg of vitamin C. Ingredients: di-calcium phosphate, microcrystalline cellulose, broccoli flower, carrot root, red beet root, rosemary leaf, tomato fruit, turmeric root, cabbage leaf, vitamin C, grape seed extract, stearic acid, magnesium stearate, grapefruit bioflavonoid, hesperidin, orange bioflavonoid, silicon dioxide, pine bark.

SynerPro Citrus Bioflavonoids – 1 oblong, whitish tablet supplies 500 mg of vitamin C. Ingredients: vitamin C, di-calcium phosphate, stearic acid, orange bioflavonoids, hesperidin, grapefruit bioflavonoids, lemon bioflavonoids, rutin, magnesium stearate, rosehips concentrate, cellulose.

SynerPro Citrus Bioflavonoids – 1 amber, softgel capsule supplied 268 mg of vitamin E. Ingredients: vitamin E, capsule shell (gelatin, water), beeswax, glycerin, soyabean oil, selenium, lecithin.

These vitamins, along with the trace mineral selenium, help prevent important molecules and structures within the cell from reacting with oxygen, which often injures the cell structure. This process is called oxidation.

Take the contents of one packet daily with a full glass of water.
